THE NATIONAL ANTHEM

Music by Frances Berda
Words by Lillian Jean Williams

Nigeria, we hail thee,
Our own dear native land,
Though tribes and tongues may differ
In brotherhood we stand,
Nigerians all, and proud to serve
Our sovereign Motherland.

Our flag shall be a symbol
That truth and justice reign,
In peace or battle honour'd,
And this we count as gain,
To hand on to our children
A banner without stain.

O God of all creation,
Grant this our one request.
Help us to build a nation
Where no man is oppressed,
And so with peace and plenty
Nigeria may be blessed.

THE NATIONAL PLEDGE

I pledge to Nigeria my country,
To be faithful, loyal and honest,
To serve Nigeria with all my strength,
To defend her unity,
And uphold her honour and glory,
So help me God.

UNILORIN ANTHEM
(The Alma Mater)

Music by Lavina L. Odejimi
Words by Lavina L. Odejimi & Abraham T.J. Adavi

In love, peace and harmony
We shall build the tower,
Unilorin!
Hear the clarion call,
In unity we grow,
Committed to the seat of learning,
Our hearts from vanities,
Standing firm in wisdom, in knowledge, and in truth,
We honour your virtues,
Unilorin, you stand in strength and pride,
Learning, winning, building, praying,
Showing the way, for all who yearn,
Making a future for the ones who follow,
Rising high we must never turn,
Ilorin, Unilorin, your torch has guided us,
Upward and inwards,
Ilorin, Unilorin our Alma Mater,
We sing!

THE UNIVERSITY OF ILORIN HISTORICAL NOTES

PREAMBLE

The University of Ilorin is in the ancient city of Ilorin, about 300 kilometres from Lagos and 500 kilometres from Abuja the Federal Capital Territory. Ilorin, the Capital of Kwara State, is a gateway town strategically located at the geographical and cultural confluence of the North and South of Nigeria.

The University of Ilorin is one of the institutions of higher learning established by a decree of the Federal Military Government in August 1975 in line with the provision of the third National Development Plan. This step was taken to provide more opportunities for Nigerians aspiring to acquire University education and to generate relevant high-level manpower for developing Nigeria's economy.

Initially, as an affiliated College of the University of Ibadan, Dr T.N. Tamuno, Professor and Head of History Department at the University of Ibadan, was appointed the first Principal of the University College, Ilorin, in September 1975. Shortly after Professor Tamuno's assignment as Principal of the College, he was appointed the Vice-Chancellor of the University of Ibadan. It therefore, became necessary to appoint another Principal in the person of Dr O.O. Akinkugbe, Professor of Medicine and former Dean of the then Faculty of Medicine, University of Ibadan, in December, 1975.

With the assistance of the then Military Governor of Kwara State, late Colonel Ibrahim Taiwo, the then new Principal, Professor O.O. Akinkugbe, was, by March 1976, in residence in Ilorin, at a rented apartment, which also included a three-bedroom Guest Chalet at 5, Forest Road, G.R.A., where the administrative work of the University was carried out. Prof. O.O. Akinkugbe started with four members of staff comprising two Administrative Officers, one driver and one Clerk/Typist. Soon after, staff recruitment began in earnest, and by July 1976, a sizeable number of academic, administrative and technical staff had been employed for the take-off. Immediately, the administration moved to a slightly more spacious location at Sabo-Oke. The support enjoyed by the fledging institution continued under the third Military Governor of the State, Brigadier George Innih, who gave a portion of the Kwara State College of Technology to the University. This served as the Mini Campus for 36 years but

presently houses the University of Ilorin Secondary School, UNILORIN Joint Universities Preliminary Examinations Board (JUPEB), Institute of Education (IOE) and the Centre for Open and Distance Learning (CODL).

ACADEMIC AND PHYSICAL DEVELOPMENT

Following an entrance examination, 200 foundation students were admitted into the three foundation faculties of the University College on Saturday, October 23, 1976. Thereafter, academic activities commenced on Monday, October 25, 1976, after the Principal's maiden address at about 10.00 a.m. in the Africa Hall. The foundation Faculties, namely: Arts, Science and Education, were headed by Professors O. Awobuluyi, M.O. Olofinboba and J.O.O. Abiri as Deans respectively. The foundation Principal Officers were the Registrar, Mr. Olu Daramola, the University Librarian, Mr. B.A. Oni-Orisan, the Bursar, Mr. I.A. Oyawoye and the Director of Works, Mr. R.A. Imohiosen. Under their administrative and academic leadership, the institution marched ahead towards the development of its science-oriented programmes.

In October 1977, the University College Ilorin attained a full autonomous status of a university and has since been developing by leaps and bounds. Till January 1982, the University operated its academic programmes within the Faculties of Arts, Science, Education, Engineering and Technology, Business and Social Sciences and the Pre-Clinical aspect of the Health Sciences on the Mini Campus. The completion of the faculty blocks for Natural Sciences and Engineering as well as 8 blocks of students' hostels by December 1981, made it possible for the movement of over 1,000 science-oriented students to the Main Campus to pursue their various academic programmes on 2nd January 1982. As of 2023, the overall student population of 200 in 1976 had increased to 50,833 across 16 faculties on three campuses (Mini Capus, Main Campus & the College of Health Sciences Campus).

The Faculty of Health Sciences, metamorphosed into the College of Medicine in 1983 and subsequently to the College of Health Sciences. The University also constructed a Central Power Station Unit to serve as stand-by power supply for the entire main campus, a radio station, a sport complex with a sports pavilion, comprising a standard indoor sports hall, a fitness centre, a tartan track, 4 lawn tennis courts, 2 basketball courts and 2 volleyball courts. Extensive construction and rehabilitation works were carried out on many roads on the campus (e.g. the link road between the main campus and the College of Health Sciences, construction of walkways, drainages and sand crete block fence at Bolorunduro and Ile-Apa boundary of the University, construction of students' sit-outs across

Faculties, gate and gate house at Sentu boundary of the University 200m² and 500m² elevated water tanks and three 1000m concrete ground water tanks, water distribution network and the overhead electricity lines from Ganno to the main campus, parking lots across Faculties and Departments, public toilets at the University zoo, as well as, construction and rehabilitation of street lights. Over the years, several bore-holes were also sunk in addition to the building of a Booster Water Station to improve water supply. As of 2024, there are sixteen Faculties in the University. These are Agriculture, Arts, Basic Clinical Sciences, Basic Medical Sciences, Clinical Sciences, Communication and Information Sciences, Education, Engineering and Technology, Environment Sciences, Law, Life Sciences, Management Sciences, Pharmaceutical Sciences, Physical Sciences, Social Sciences, and Veterinary Medicine. Altogether there are 115 academic Departments in the sixteen Faculties.

The duration of undergraduate degree programmes ranges from three to six years, depending on entry qualifications, and discipline. The University started with the traditional “Three-Term System”, but later changed to the “Two Semester System” called Harmattan and Rain Semesters with effect from 1979/80 academic session. Each semester comprises one-half of an academic year as determined by Senate. Also, instruction in the various Faculties, apart from the medical programme in the Faculty of the Clinic Sciences of the College of Health Sciences, is by the course system and courses are quantified into credits.

The University has teaching support units which include the Computer Services and Information Technology (COMSIT), Network Operating Centre (NOC), Central Workshop, Biological Garden, Community-Based Experience and Services (COBES), Medical Educational Resources Unit (MERU), Technical and Entrepreneurship Centre (TEC), Centre for Translation Arts, World Health Organisation (WHO) Collaborating Centre, General Studies Division, Teaching and Research Farm, Centre for International Education, Centre for Research, Development and In-house

POSTGRADUATE SCHOOL

A Postgraduate School was inaugurated on 8th November, 1983. Prior to the time, matters relating to Postgraduate Programmes were handled by the Board of Postgraduate Studies. Postgraduate studies initially commenced in the Faculty of Science when in 1977, two candidates were enrolled for the Master of Science degree in the Department of Biological Sciences. Since then, higher degree programmes including doctoral programmes have commenced in other faculties; and the Postgraduate Diploma in Education (PGDE), Diploma in Medical Radiologic Diagnosis (DMRD), Postgraduate Diploma in Computer Science (PGDCS), Postgraduate Diploma in Statistics (PGDS), Postgraduate Diploma in Strategic Management (PGDSM) have also been introduced.

The University Postgraduate programmes have progressed well in enrolment and graduation since its inspection in October 1978. For instance, from 2 Master degree graduating students in 1978, the University graduated 605 Master Degree students in 2023 and from only 2 Ph.D. graduating students in 1983, the University also graduated 197 Ph.D. students in 2023. Given the above, it is imperative to note that the University has continued to establish and maintain high standard of scholarship in its various academic disciplines through teaching, research and postgraduate programmes.

STUDENTS' ACCOMMODATION AND WELFARE

All the students were initially residential but as the students'

population increased over the years, the existing halls of residence became overstretched. The University, therefore, had to embark on the off-campus system with effect from the 1981/82 session. The University, therefore, embarked on the off-campus system with effect from the 1981/82 session. Currently with the participation of the Private Hostel Investors, available data showed that there are 49 hostels (public and private) on campus. Of these, the private hostel is contributing 10,877 bed spaces whereas the public hostels have about 3,872 bed spaces. By implication, about 26.12% of our student's population are accommodated on campus in both the University students' hostels and those provided by private developers through the Public-Private Partnership Initiative.

The Halls of Residence are administered through the Committees of Public and Private Hall Masters/Mistresses and the Students' version, the Hall Representatives. Feedback from the Hall Masters/Mistresses through their Chairman and those of the Hall Representatives are quickly attended to by the Student Affairs Unit.

Hitherto, the University has two Central Cafeterias, one each at the Mini Campus and Main Campus, but following the Federal Government directive on federally subsidised students' feeding, effective from October 1984, students' catering services were provided by private caterers to run the eateries. The latter catering services became operational in November 1984. However, by mid-1990, the students' catering services ceased to exist and instead were replaced by food canteens referred to as bukaterias which have been sustained to date.

Currently, there are two types of accommodation on campus: the public hostels and the private hostels. These hostels were recently classified into a scale of 5 (A-E) according to the quality of services they provide. The hostels are generally provided with minimum basic requirements. Each of the hostels has a functional buttery, thus, making the purchase of essential commodities very easy.

To further enhance, students' welfare at the beginning of every session, the Student Affairs Unit organised an orientation programme for new students. This largely ensured peace and tranquillity on the campus. It is also the University's policy that all students' clubs and associations within the University must

mandatorily register with the Student Affairs Unit to ensure proper monitoring of their activities. Also, to bridge the gap between the University Administration and students and cultivate leadership ability in the students, students are appointed on various standing Senate and Administrative Committees and by means of other non-formal mechanisms. The following are some of the Boards and Committees in which students are represented:

- i. Sports Committee
- ii. Students' Disciplinary Committee
- iii. Academic Planning and Curriculum Committee
- iv. Campus Security Committee
- v. Students' Welfare Board
- vi. Board of Health
- vii. University Joint Council on Religious Activities

STAFF ACCOMMODATION

Whereas initially, the University provided accommodation for its senior members of staff only, it extended this facility to the junior staff upon the completion of the Federal Government Low-Cost Housing Units at the Main Campus. For the senior staff, there are 141 housing Units on the Main Campus, made up of 98 bungalows, 7 maisonettes and 9 blocks of 4 flats each. This is in addition to 56 units on the University Government Reserved Area (GRA) Quarters. There are also the University Guest Houses to cater for the immediate accommodation of new staff. A cost-saving housing policy of Rent Grant/Furniture Loan was introduced in 1984 to replace the former policy of providing part-furnished accommodation to staff on HATTIS 9 and above. This, however, has ceased because of the consolidated salary structure introduced by the Federal Government in 2007.

INAUGURAL LECTURES

INAUGURAL LECTURES (UPDATE)

An Inaugural Lecture is an Academic Tradition inherited from some of the ancient renowned Universities of the world. The objective of an Inaugural Lecture is to initiate, among others things, a Professor into a Professorial chair and afford him the opportunity of telling the world in lucid, digestible and scholarly language how he has arrived as a Professor.

In pursuance of this objective, the University of Ilorin commenced, in 1979 its University Lectures consisting of a series of 2 to 3 lectures per session. However, in March 1982, an Ad-hoc Committee was set up to formulate guidelines on upgrading University Lectures to Inaugural Lectures. A series of 5 lectures per session to be given by persons appointed to Professorial chairs in the University was recommended. So far 110 of such lectures have been delivered in the following order:

HUMAN RESOURCES MANAGEMENT BOARD

As part of its desire to generate revenue to supplement the lean and declining government subventions, Universities were encouraged to try some measures of revenue yielding ventures. As a follow-up, the University, in November 1982, set up the Governing Board of Consultancy Services and Revenue Yielding Projects under the Chairmanship of the Vice-Chancellor.

The Governing Board held its inaugural meeting on 8th November 1982. It is this body that formulates policies on consultancy services and revenue yielding projects. The Governing Board, through its Chairman, in its bid to fulfil its aspirations, formed Management Boards for the various projects, with the sole aim of generating revenue by charging for services rendered. Most of these projects had hitherto operated as mere service-oriented ventures.

The projects were later constituted into a limited liability company (The Unilorin Holdings Ltd, UHL). The UHL is presently centralised with each project having its own independent committee which reports to the Governing Council through the Human Resources Management Board and the Council Monitoring Committee on Revenue Yielding Units/Outfits (CMOCRYUO). The Management Committees are for these Units:

- (1) Unilorin Consultancy Services Unit (UCSU)
- (2) Unilorin Property Management Unit

- (UPMU)
- (3) Unilorin Guest Houses (UGH)
- (4) Unilorin Natural Resources Management Unit (UNRMU)
- (5) Unilorin Press (UP)
- (6) Unilorin Computer Services Centre (UCSC)
- (7) Unilorin Academic Ventures (UAV)
- (8) Unilorin Petrol Station (UPS)

The Human Resources Management Board comprises:

- (i) Vice-Chancellor - Chairman
- (ii) Director-General - Vice-Chairman
- (iii) An External Member of the University Governing Council
- (iv) Directors/Managers of Units
- (v) One Representative of Alumni Association
- (vi) A successful Businessman from outside the University
- (vii) A Legal Practitioner from within the University
- (viii) Registrar
- (ix) Bursar
- (x) Director of Works
- (xi) Secretary – Registrar’s nominee

are in the process of proposing innovative professional programmes for the school to further boost the prospect of the school. The School is in the process of reaching out to Faculties and Departments on the need to propose innovative professional programmes to Ilorin Business School.

2. Professional Training and Certification Centre

Asides the degree programmes, the school is equally better placed to undertake professional trainings and certifications in all careers.

3. Lecture Series and Conferences

The school has the potential to drive lecture series, conferences and seminars for the purpose of gathering more initiatives from other business schools both within and abroad.

The change in the required industrial skills and knowledge because of the emerging technology-driven society opened ways for many professional programmes across all disciplines to be housed by Ilorin Business School.

The office is currently located at No. 39 Okeho, Ire-Akari Estate, Isolo, Lagos. The University has also acquired a 3-bedroom flat at Wuse, Abuja, as the Abuja Liaison Office. POST OFFICE

A Postal Agency with relevant trained staff started operating on the Mini Campus of the University in May, 1978. An ultra-modern but compact Post Office, built on the Main Campus of the University by the Federal Ministry of Communications commenced operation on 12th March, 1985. This has now been moved to a more accessible location in the Academic area of the University. All postal services are provided to members of staff and students of the University as well as visitors and the University community.

TEACHING AND RESEARCH FARM

The Teaching and research Farm was established more than three decades ago with the primary objective of acting as the field laboratory for the students, and staff field research as well as application of research findings to food and raw materials production.

The two field-oriented Departments in the Faculty carry out research in the areas of arable crops, tubers, vegetables, fruits, etc. Research in the area of livestock was limited to the Department of Animal Production where animals such as ruminants, monogastric and poultry are used.

Students go through the mandatory and comprehensive one-year Farm Practical Training Program. The farm also rendered technical services to interested farmers in and around the University, provide gainful employment for both skilled and unskilled workers. Farm produces are also made available from time to time to the University community. These include fresh table eggs, fresh lean pork, culled layers, beef, cheese, rams, improved seeds and seedlings (e.g. oil palm seedlings). Apart from the teak, jatropha and the moringa plantations, another 147ha of oil palm plantation has been established while an area of land has also been set aside for expansion of the cashew plantation.

THE BIOLOGICAL GARDEN

The Biological Garden was established in 1976 as part of the Department of Biological Sciences. Between 1976 and 1984, the Garden operated essentially on the Mini Campus on a small plot of land containing a few animals and plants. This satisfied, to a large extent, the teaching needs of the Department and indeed of some colleges and schools in and around Kwara State.

The garden moved to its present location at the University Main Gate in December 1984. The Biological Garden was officially declared open to the public on Monday October 21st, 1985, by the then Vice-Chancellor of the University - Prof. S. A. Toye -who himself as a Zoologist and lover of nature gave the Garden much interest and support.

The Biological Garden was established to serve the function of teaching and research at undergraduate and postgraduate levels as well as service advanced research being carried out within and outside the University particularly in the field of animal behaviour/habits and plant ecology. In addition to its fundamental objective of teaching and research, the Garden is being developed to cater for educational, cultural and recreational interests of staff, students and community. The garden is usually open to the public as from 6am upon payment of the prescribed fees.

With a total of 48 animals of different species and various kinds of plants and flowers, the Department considered it necessary to allow public viewing of the Garden on payment of a nominal fee especially as recreational amenities of this kind are presently inadequately provided in Kwara State.

THE UNILORIN SUGAR RESEARCH INSTITUTE

The Unilorin Sugar Research Institute was established by the Council of the University of Ilorin in January 1980. It is the only Institute of its kind in Nigeria, and indeed in the West African sub-region. Its sole mandate is to conduct research on sugarcane production and processing. The idea for the establishment of the Institute emanated from the deliberations of a workshop organized by the Faculty of Science of the University of Ilorin in 1978 on

“Scientific Research and Nigerian Industries”. At the end of the workshop, which drew participants from other Universities, the Industrial Training Fund, Federal and State Ministries, Industrial establishment and private organisations, it was resolved that the Faculty should explore the possibility of establishing a Sugar Research Institute. The first set of academic staff in the Institute assumed duty in August 1980.

The broad objectives for which the Institute was established are:

- i. Conducting research into problems associated with sugarcane cultivation, processing and utilization, including utilization of by-products.
- ii. Training of undergraduate, postgraduate students and sugar factory/estate workers in biology/agriculture, processing and utilization of sugarcane and its by-products.
- iii. Rendering of consultancy services on sugarcane cultivation, processing and utilization.

The research activities of the Institute have been mainly in the area of sugarcane agronomy with specific emphasis on the development of effective field management strategies for high yields of sugarcane.

The short-term research activities have yielded some useful results in the areas of weed management, disease control and information on the suitability of different imported sugarcane varieties for commercial cultivation in the sugarcane estates.

The long-term research activities of the Institute centre on the development of new and improved sugarcane varieties with wide adaptation to the local conditions, high cane yields and resistance to the common pests and diseases of the crop. This effort had commenced since the 1983 growing season and the progenies obtained from that year’s hybridization are currently at an advanced stage of evaluation. This modest effort has resulted in the release of first two indigenous sugarcane varieties developed by the Institute (ILS-001 and ILS-002) with high yield potential across the sugarcane growing ecologies of Nigeria.

The institute has also been involved in externally funded collaborative research activities with National bodies such as

Agricultural Research Council of Nigeria (ARCN) and National Sugar Development Council (NSDC) under which germplasm enhancement, characterization and utilization as well as Biofuel (ethanol) research activities were undertaken. Four (4) of the progenies emanating from these activities are currently being multiplied for further evaluation prior to their being recommended for release by the National Variety Registration and Release Committee.

As part of its continued collaboration with National bodies, the Institute along with two other Institutes in Nigeria and Cote d'Ivoire, under the aegis of West Africa Sugar Development Project, evaluated 40 improved sugarcane varieties in different agro-ecologies of the two countries. The projects were sponsored by the Common Funds for Commodities (CFC) with the supervision of the International Sugar Organization (ISO). The best five varieties identified in two rainforest ecologies (Ikenne, Ogun State and Agenebode, Edo State, Nigeria) are currently being multiplied for uptake by the emerging sugar industries and sugarcane out-growers associations.

Furthermore, the Institute is also involved in other collaborative research activities on varietal evaluation, advancement and germplasm enhancement. These projects are funded by the NSDC, Abuja. With the revitalization of the Research Associates, it is expected that the scope of research activities in the Institute will be expanded.

UNILORIN CONSULTANCY SERVICES AND REVENUE YIELDING PROJECTS

UNILORIN BOOKSHOP

Following the disengagement from the University Bookshop (Nig.) Ltd., which had hitherto, under a special relationship been running a branch of its establishment on the University Mini Campus, the Unilorin Bookshop was established in July 1982. The objective was to provide a profit yielding enterprise, without sacrificing its efficiency in serving the academic needs of the University Community. The main office of Unilorin Bookshop is located on the Mini Campus.

The Bookshop is presently on lease to a private organisation. The Unilorin Property Management Board and the Vice-Chancellor's Representative on the Management Board of the Bookshop oversee the running and operation of the Bookshop on behalf of the University.

UNILORIN DAM

The construction of the main dam was started by the Petroleum Trust Fund in 1994. Although work stopped in July 1999, the Federal Government in 2004 released fund for its completion. The dam has a capacity of 1.8 million cubic reservoir while the water treatment plant has an installed capacity of 100 cubic meters per hour. The complex was commissioned in May 2007 by the then visitor to the University, President Olusegun Obasanjo. With the dam and treatment plant in place, the University has been enjoying stable water supply.

UNILORIN GUEST HOUSES

The Unilorin Guest House is made up of eight chalets and 8 single rooms at the Researchers' Lodge on the main campus and ten rooms at the University of Ilorin Guest House on the mini campus. This is an institution that caters for the children of University staff as well as children from the locality where academic excellence is extolled. It adopts the concept of 'total' as its philosophy in moral training. The academic performance of the U.S.S. students is the envy of similar institutions in the community. The financial support given by the University, which has put in place a dynamic and efficient Board of Governors, and the commitment and complementary support of the parents are sources of the strength and success of the school. The U.S.S is a model Secondary School of which the University is justifiably proud.

In sports and related co-curricular activities, Unilorin Secondary School is marching on unrivalled. Many products of the school are now in such professions as Medicine, Law, Accounting, Engineering, Teaching, etc.

UNIVERSITY LIBRARY

General

The Library is primarily responsible for selecting, acquiring and organising books, periodicals, documents, newspapers, maps and other materials that are required for the teaching and research activities of the University. The responsibility for book selection is jointly shared with members of the teaching staff. Readers wishing to suggest books and periodicals for addition to the collections may do so by completing appropriate slips which can be obtained on request from the Acquisitions Librarian and the Loan's Desk.

Presently, the Library's book collections numbered about 100,000 in volumes after extensive weeding exercises for relevance and currency. It also has an estimated number of periodicals of about 330 titles and about 6000 theses. A total of 4662 periodicals including journals, Magazines and Newspapers. The Library presently subscribes to a maximum of 12 newspaper titles daily and there are 11,166 pieces of government publications, 2,707 rolls of microfilms, 18,895 sheets of microfiches, 75 gramophone records, 300 audio cassettes, 57 video cassettes and 799 slides. The Library has resources including books and journals in both hard and electronics copy in all the disciplines and programs offered in the University. The Library provides a wide range of

services including interlibrary loans and photocopying. Machines are available for consulting microfilm and audio-visual materials. Detailed instruction in library use is provided to undergraduates as part of the General Studies Programme. Advanced bibliographic courses are available on request by lecturers for final year and postgraduate students preparing for their long essays and dissertations. The Library also provides carrel services, which affords individual users the opportunity for a serene, private and conducive apartment for studying within the Library. Interested users are expected to request for this service at the circulation unit of the Library. All enquiries regarding reader instruction, either on individual basis, or in groups are made to the Readers' Services Librarian. This and other Library service are being provided by a wide-ranging cadres of work force numbering 109 staff members including 24 professionals, 64 paraprofessionals, 21 non-professionals.

The Electronic Library, which started off over a decade ago in a facility donated to the University which is a far distance from the main Library has been recently relocated back to the new extension of the main Library. The newly completed extension of the Library is a one story building whose first floor as been solely dedicated as the new E-Library with complete networking which prepares it for the development of a virtual environment for service provision. Also, instructive is that the Library Extension building came along with its furniture namely reading tables and chairs, as well as bookshelves. At the beginning of its computerized process the Library adopted TINLIB and Alice for window software which has since been changed to KOHA. There are presently 220 desktop computers which are fully networked. There are 18 computers at the On-line Public Access Catalogue Section (OPAC).

Currently, there are 17 subscribed and non-subscribed databases in all. Prominent among which include *EBSCOHOST*, *SCIENCEDIRECT*, *EMERALD*, *PROQUEST*, *LAWSCOPE AND HEINOLINE*. The unsubscribed databases include *Agora*, *HINARI*, *OARE*, *ARDI*, *GOALI*, *JSTOR*, among others; some of which are general in scope while others are discipline specific. They are used for carrying out searches in different fields for both staff and students. The Library also manages the Universities institutional repository (IR), using *DSPACE* software which represent the reservoir of the intellectual productivity of the University. In the

IR all publications and other research output of the senior members of the University particularly those of the Professorial cadres are uploaded as an important requirement for promotion. UNIVERSITY SCHOOL

University School (at inception known as University Staff School) was established on 19th September 1977.

It was established as a Nursery/Primary School taking pupils from (3½ years), three and half years of age to 11 years of age.

The then University Staff School was established a year after the commencement of University College, Ilorin. It was established to provide good and sound primary education for the children of the staff and non-staff alike.

The school commenced on a temporary site at Sabo-Oke with a population of hundred and seventeen (117) pupils. But presently, we have a population of three hundred and thirty-eight (338) pupils. Comprising (192) of University Staff children and 146 non-staff children at Lower Middle and Upper Basic Classes.

The Upper Basic Class, that is basic 7-9 was accredited in February, 2014 by the National Examination Council (NECO) following the thorough accreditation inspection by the Kwara State Ministry of Education and Human Capital Development in June, 2013. Consequently, the school is, qualified and has been writing both state JSCE and NECO examinations since 2013.

The curriculum comprises the Basic School subjects: Mathematics, English Studies, National Values, Religious Knowledge, French, Business Studies, Cultural and Creative Arts, Yoruba and Arabic Studies. School opens at 8:00 a.m and closes at 1.00 p.m for Reception section and Basic 1 – 6 and 2:00 p.m for Basic 7 – 9. An optional lesson runs between 1:30 p.m – 3:00 p.m for the Primary section and 2:00 p.m – 3:00 p.m for the Upper Basic from Monday to Thursdays.

The performance of our pupils in NECO examinations between 2011 – 2015 had been heartwarming. This feat is largely attributed to the teachers who were hard working, dedicated and committed to their duties.

The school's academic calendar for 2017/2018 session has three terms of 14 weeks (1st term), 12 weeks for the 2nd term and 14 weeks for the third term that ends on 27th July, 2018.

A student in the Doctor of Optometry and Vision Science (OD) programme must obtain at least 50% in all courses offered and maintain a minimum CGPA of 3.00.

24. Probation

For 200,300 and 400 Level Students
